EDUCATION

2024 – Studying Mathematical Economics and Artificial Intelligence, Fudan University
GPA: 3.97/4.0; ranked 1st in the major.

RESEARCH

2026 – Co-author
PI: Mingduo Zhao, University of British Columbia. Learning the quantity-quality Trade-off of AI on academic production, using scraping, NLP and eventstudy.

2026 – Co-author
With Punuo Zhang, Fudan university. Using NLP and LLM to extract feature from financial text, further building a global-game model for analysis in financial crisis.

2024 Research Assistant
Fudan University; supervisor: Xian Xu. Cleaned and validated data for the Fudan University Natural Disaster Database.

2025 Macroeconomic Research Intern, CITIC Securities
Worked on macroeconomic reports, stock-index-futures forecasting, RMB swap pricing, and pension reform analysis.

PAST RESEARCH

2025 Research Collaborator, Xiyuan Program (with Boyang Hu)
Studied the effects of corporate ownership reform on firm performance using econometric methods.

2025 Global AI Security Challenge, Image Interactive Authentication Track
Developed a diffusion-model-based image generation solution; placed in the top 10.

2025 American College Mathematical Modeling Competition
Built a neural-network model for cybercrime trends and handled data preprocessing and feature engineering.

GRANTS & REWARDS

2025 Cyrus Tang Scholarship for Moral Education

2025 Global AI Security Challenge, Top 10

2026 Best undergraduate paper in School of Economics' undergraduate academic forum

2024 National Scholarship(top0.5%)

2024 Ranked 2nd in the School of Economics, Fudan University

2020 – Shuping Scholarship
